

Pressure Right SmartCare™ Acupressure Intervention For Nausea Control & More

Pressure Right acupressure strips are USFDA 510(k) cleared to help pregnant women effectively deal with pregnancy related nausea and vomiting symptoms. Its consistent anti-nausea effectiveness is continuous for up to 3 days. As a result, patients can have a hassle-free experience leading to a better quality of life recovery during the early stages of pregnancy.

Pressure Right's nausea resistant mechanism taps into the body's energy system, which is responsible to keep organs healthy. In the case of the P6 acupoint, the latter becomes the trigger point when stimulated by acupressure to transfer a sufficient amount of energy to override the effects of nausea and vomiting. The transference of this energy is directed to the heart, mind and stomach to repel the upsetting impact of morning sickness issues.

Pressure Right compliments most pregnancies, even bringing some relief to hyperemesis

pregnancies. The use of Pressure Right acts as a preventative, unlocking nausea-free sustainability to counter morning sickness. It's drug-free, hypoallergenic and latex-free.

Relief from morning sickness nausea is one of the main concerns of pregnant women.

Pressure Right's acupressure therapy can prevent and/or treatment morning sickness issues. It helps calm the heart and mind as well as shields the stomach from nausea and vomiting disturbances related to morning sickness for up to 3 days consistently.

Pressure Right Strips are suitable for most pregnant patients.
